

Harbor Point After-Hours Access Exception

NU-OPS-004

Document ID: NU-OPS-004

Status: draft

Version: 1.0

Effective date: 2024-10-07

Access scope: operations_leads

Site scope: harbor_point

NU-OPS-004 · Draft; not active

Northstar Urgent Care Cooperative · Harbor Point only

Version 1.0 · Proposed window: 2024-10-07 through 2024-10-11 · Access scope: operations_leads

Fictional educational test material. This proposed exception concerns a limited non-clinical administrative task at the fictional Harbor Point site. It is not access or security guidance for a real organization.

Purpose and approval status

This notice proposes a narrow exception to the after-hours access boundary in NU-OPS-002 for a scheduled administrative storage-shelf inventory and relabeling task at Harbor Point. It does not change any opening, closing, facilities, or other site requirement.

This exception is inactive while draft. It may be used only if both NU-OPS-002 and this notice are approved and effective for the applicable date. Because NU-OPS-002 is a cross-site procedure, this exception requires Director of Operations approval under NU-OPS-001. A proposed date, scheduled task, or local understanding does not authorize after-hours access.

Site, roles, task, and dates

If approved, the exception would apply only:

- **Site:** Harbor Point.
- **Task:** Inventory and relabel shelves in the designated non-clinical administrative supply storage area. No other work is included.
- **Eligible role:** Harbor Point Site Lead only, when performing this named task. Director of Operations approval is required; approval does not make another role eligible to perform the task under this exception.
- **Days:** Monday through Friday, 2024-10-07 through 2024-10-11 inclusive.
- **Access window:** 18:00 to 19:30 local site time on each listed day.

The window does not authorize early entry, access after 19:30, weekend access, or access by another role or visitor. It does not extend to Alder Creek or Northgate, another area or activity, or another date.

Proposed check-in and record

Pending Director of Operations approval. For each use of the exception, the Harbor Point Site Lead records the date, arrival and departure times, role present, task performed, and any incomplete work or issue record ID in the Harbor Point site operations handoff record. Use role names and do not add unnecessary personal details. No other role is eligible to perform the exception task.

If the task cannot be completed within the stated window, stop the exception work at 19:30, record what remains, and route any facilities issue through the applicable procedure and NU-OPS-007. A facilities route does not grant task or retrieval eligibility to the Facilities Coordinator under this exception. This notice does not authorize an extension or create an alternate routing path.

Requirements that remain in force

All requirements in NU-OPS-002 remain in force except the limited after-hours access boundary for the eligible roles, task, site, and dates stated above. In particular:

- The ordinary opening and closing handoff and recordkeeping requirements are unchanged.
- No other activity, work area, role, visitor, or site is covered by this exception.
- Facilities issues must still be routed and tracked under the applicable facilities procedure.
- This exception does not change access-item handling or authorize unassigned repair work.
- A checklist entry does not approve a separate procedure or extend this notice.

Expiration and review

If approved, this exception expires automatically at 19:30 local site time on 2024-10-11. It does not renew automatically. Any later or extended access requires a separately approved notice that identifies its own scope and dates. If approval is not recorded, or either document is not effective, this exception remains inactive and the base procedure applies without this proposed change.

The Harbor Point Site Lead records whether the task was completed and any remaining follow-up. That completion record does not extend the access window.

Revision record

Version	Issue date	Effective date	Change	Approval
1.0	2024-09-30 (proposed)	2024-10-07 (proposed)	Proposed Harbor Point-only after-hours access exception for administrative storage work	Approval pending — Director of Operations

Review/expiration date: 2024-10-11 (proposed).

Owner: Harbor Point Site Lead, Northstar Urgent Care Cooperative.
