

Staff and Site Directory

NU-OPS-021

Document ID: NU-OPS-021

Status: draft

Version: 1.0

Effective date: 2024-10-01

Access scope: all_staff

Site scope: organization_wide

Northstar Urgent Care Cooperative (NUCC)

Document ID: NU-OPS-021 · **Status:** Draft (planned status: current) · **Version:** 1.0

Proposed issue and effective date: 1 October 2024, subject to approval · **Proposed review date:** 1 October 2025

Scope: Organization-wide · **Access label:** all_staff

All names, roles, employee IDs, and organization details in this directory are fictional and created for an educational RAG test corpus. This is administrative reference material, not a clinical directory.

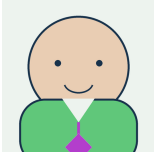

Draft notice: This directory is proposed for review. The proposed effective date does not make it an approved or current directory. Use only after the required approval is recorded.

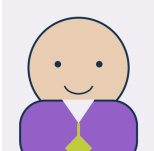

How to read this directory

The entries below reproduce the employee ID, name, role, department, and home_site values in the fictional staff registry (corpus/staff.yml). The role-focus summaries are condensed from that registry's responsibility fields. A home-site value records the registry entry; it does not establish a person's current shift, physical presence, availability, reporting line, or site coverage.

This document does not provide contact information, backup assignments, an on-call roster, or approval authority. For operational routing, use the role-based destinations in NU-OPS-007 and the applicable procedure. Do not infer a route or substitute a person based on this list.

Staff directory

Portrait	Employee ID	Name	Role	Department	Home site (registry value)
 Fictional illustrative avatar for EMP-001.	EMP-001	Mara Venn	Director of Operations	Central Operations	Central office (central_office)
 Fictional illustrative avatar for EMP-002.	EMP-002	Ilan Rook	Facilities Coordinator	Facilities and Administration	Central office (central_office)
 Fictional illustrative avatar for EMP-003.	EMP-003	Tessa Quill	Harbor Point Site Lead	Site Operations	Harbor Point (harbor_point)
 Fictional illustrative avatar for EMP-004.	EMP-004	Ren Solis	People Operations Coordinator	People Operations	Central office (central_office)
 Fictional illustrative avatar for EMP-005.	EMP-005	Dev Arlen	Records Coordinator	Records and Administration	Central office (central_office)
 Fictional illustrative avatar for EMP-006.	EMP-006	Niko Fen	Quality and Continuity Analyst	Quality and Continuity	Central office (central_office)

Portrait	Employee ID	Name	Role	Department	Home site (registry value)
 Fictional illustrative avatar for EMP-007.	EMP-007	Oren Pike	Operations Desk Coordinator	Central Operations	Central office (central_office)
 Fictional illustrative avatar for EMP-008.	EMP-008	Lio Marr	Northgate Site Lead	Site Operations	Northgate (northgate)

Role focus from the staff registry

The summaries below condense the responsibility fields in `corpus/staff.yml`. They describe registry-listed topics; they do not define approval authority, access eligibility, current assignments, site coverage, or on-call responsibility.

- **EMP-001 — Mara Venn:** Organization-wide operational governance and approvals; service continuity coordination; controlled document policy ownership.
- **EMP-002 — Ilan Rook:** Facilities issue intake and routing; non-clinical supplies and receiving; vendor visit coordination; maintaining historical facilities procedure records.
- **EMP-003 — Tessa Quill:** Harbor Point opening and closing handoffs; local site coordination and exception records; facilitating site quality huddles.
- **EMP-004 — Ren Solis:** Administrative schedule-change process; staff-facing notices and revision history for that process.
- **EMP-005 — Dev Arlen:** Administrative records routing and misdelivery reporting; maintaining the fictional information access matrix for the corpus.
- **EMP-006 — Niko Fen:** Non-clinical incident reporting guidance; severe-weather coordination materials; operations metrics definitions and reporting notes.
- **EMP-007 — Oren Pike:** Maintaining role-based site contact and escalation routing; recording unresolved operations desk questions and follow-ups.
- **EMP-008 — Lio Marr:** Northgate site operations and receiving handoffs; maintaining records for time-limited local exceptions.

Portraits are decorative fictional illustrations assigned to employee IDs for this test corpus. They are not photographs or likenesses of real people and do not encode or establish a person's identity, age, appearance, role, or personality. The text fields in each row provide the directory information.

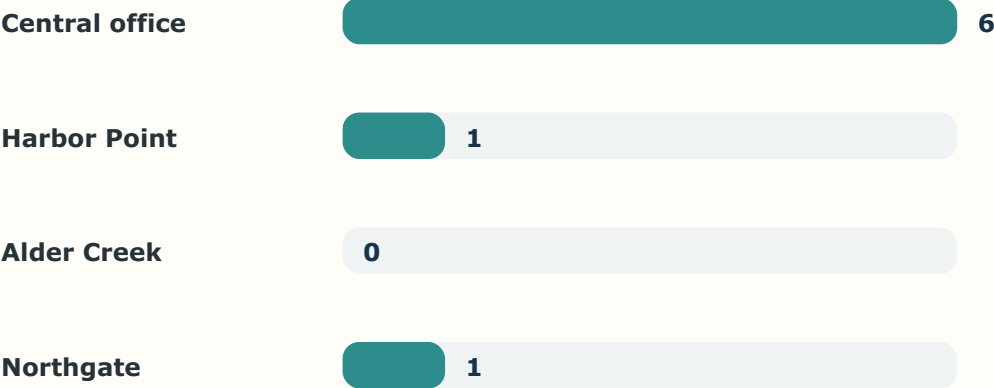

Registry snapshot by home site

The staff registry contains eight employee entries: six with `central_office` as `home_site`, one with `harbor_point`, and one with `northgate`. These are counts of registry entries grouped by the recorded home-site field only. They are not headcounts of people assigned to work at each site, staffing levels, shift coverage, or current attendance.

Registry home_site value	Entries in staff registry
central_office	6
harbor_point	1
northgate	1
alder_creek	0

Staff registry entries by home site

Grouped from 8 entries in staff.yml · central office is a separate registry location

Alder Creek: 0 registry entries (no staff.yml entry with home_site=alder_creek).

Counts are registry rows by home_site, not site staffing, coverage, or attendance.

Staff counts by registry home_site; central_office is shown separately from the three clinic sites.

Chart caption: Registry entries by recorded `home_site`. This graphic summarizes the table above and does not represent actual staffing coverage. The table and prose remain authoritative.

Site-role note

The staff registry names Tessa Quill as Harbor Point Site Lead and Lio Marr as Northgate Site Lead. It contains no employee whose role is Alder Creek Site Lead and no employee with `alder_creek` as `home_site`. This means the registry does not identify a named Alder Creek incumbent; it does not establish whether the role is vacant, covered by an unlisted person, or assigned temporarily. NU-OPS-007 lists role-based routing separately and should be consulted for routing details.

Updates and limits

This directory reflects the staff registry used for the proposed 1 October 2024 corpus snapshot. The registry is the source for these identity and home-site fields. A proposed correction should be made to the registry first and then reconciled here; this draft does not independently establish a personnel change.

This document does not define employment status, schedule, reporting lines, backup coverage, contact routes, or responsibilities beyond the role-focus summary sourced from the registry. For role routing, consult NU-OPS-007. For corpus access labels, consult NU-OPS-010.
